Education

State University of New York at New Paltz

Bachelor of Science in Computer Science

New Paltz, NY

December 2024

Relevant Courses: Software Engineering, Object Oriented Programming, Data Structures, Assembly C/C++, Image Processing

Skills

Languages: Python, Java, C, C++, C#, JavaScript, TypeScript, PHP, Swift, Assembly, Bash

Frameworks/Technologies: Django, Flask, HTML, CSS, React, Vue.js, Node.js, Express.js, TypeScript, jQuery, Bulma

Other: MySQL, MongoDB, Git, REST API, Panda

Projects

Spotify API Web App | Python, Flask, MongoDB, MySQL, JavaScript

- Developed a full-stack web application utilizing Spotify's API giving the user a customizable "Daily Drive" playlist with automated updates of news and music curated to the user's profile.
- Decreased algorithm time complexity by utilizing MongoDB and MySQL for storing user info and playlist data, resulting in more responsive DOM load times.

Overwatch Team Balancer | Python

- Decreased team sweeps in custom Overwatch lobbies by coding a balancing system resulting in evenly matched teams.
- Interfaced with Overwatch's API to auto-fill player data and eliminate the need for a database, decreasing run time.

DiscordBot Script | Python, Discord.py

- Increased gameplay retention by coding custom auto-moderation and game server remote start via discord channels.
- Increased community engagement by creating an AI chat bot using Python and JSON to implement custom commands.

Codies.xyz Game Clone | Node, Express, JavaScript, Docker

- Implemented Express.js and Node.js to create a local real time game server while providing a rapidly responsive clone.
- Recreated a lightweight and minimalistic experience through utilizing primarily JavaScript to decreased DOM load time.

WebVizOS Web App | Java, PHP, jQuery, Ajax, Bootstrap, JavaScript, Bulma, REST API

- Reconstructed a legacy class group project through managing a 5-person team, utilizing Gantt Charts and git.
- Restored 60% functionality of legacy code by repairing backend Java code and utilizing REST API to connect the frontend.

Work Experience

Medical Assistant

Vassar Brothers Medical Center (Nuvance/Northwell)

September 2024 - Present

Poughkeepsie, NY

- Increased patient satisfaction scores 10%, resolving documentation and scheduling issues by restructuring protocol.
- Decreased patients' wait time by 15 minutes by developing new intake procedures, removing dead time.

Emergency Medical Technician – Basic

Empress EMS (Mobile Life Support Services)

March 2019 – November 2024

Poughkeepsie, NY

- Increased in-service 911 units per call by leading effective and rapid emergency scene management resulting in quick scene turnovers in behavioral, traumatic, and medical emergencies.
- Reduced system down time and increased positive patient outcomes by providing employee trainings on equipment and treatment protocols.
